

## Foundstone Professional Services – Outsourcing and Third-Party Check

### Overview

In today's collaborative business environment, it's critical that your partners, third-party companies, and outsourced providers enforce information security policies that are consistent with your own to prevent intentional or unintentional data leaks, network attacks, and threat outbreaks.

### Benefits

Foundstone<sup>®</sup> consultants help ensure that malicious code from hackers or third-party companies do not compromise your network by identifying their compliance gaps.

### Methodology

Foundstone uses the following methodology to complete the Outsourcing and Third-Party Health Check for your organization:

- We help you identify the companies you do business with.
- We review the security policies and procedures of your third-party and outsourced companies.
- We interview key personnel within your organization.
- We perform Gap Analysis based upon the results of the policies and procedures review and interviews.

### Scope

The typical duration of this engagement ranges from three days to two weeks, depending on the size of your organization and project scope.

### Deliverables

Our deliverables include:

1. Outsourcing and 3rd Party Health Check Report with Summary Report Card
2. Next-step recommendations
3. Half-day Outsourcing and Third-Party Health Check presentation and results review workshop

All Foundstone projects are managed using Foundstone's proven **Security Engagement Process (SEP)** for project management. A pivotal aspect of this process is continual communication with your organization to ensure the success of your Foundstone consulting engagements.
