

Foundstone Professional Services – Regulatory and Compliance Health Check

Overview

Does your organization meet the compliance requirements of the Gramm-Leach-Bliley ACT (GLBA), the Health Insurance Portability & Accountability Act (HIPAA), the California Senate Bill (SB) 1386, or Sarbanes-Oxley, BS/ISO17799? Foundstone® can help your organization understand and meet your regulatory compliance requirements by performing a Compliance Health Check to assess the gaps.

Benefits

A Regulatory and Compliance Health Check quickly determines gaps in your compliance status. Foundstone customizes your analysis to specific regulations that apply to your business or organization. We offer customized gap analysis of the following government and industry regulations:

- HIPAA Check
- ISO17799 Check
- GLBA Check
- SB1386 Check

Methodology

Foundstone uses the following methodology to complete the Regulatory and Compliance Health Check for your organization:

- We review your regulatory and compliance related policies and procedures.
- We interview key personnel within your organization.
- We perform Gap Analysis based upon the results of the policies and procedures review and interviews.

Scope

The typical scope of this engagement ranges from three days to two weeks, depending on the size of your organization and project scope.

Deliverables

Our deliverables include:

1. Regulatory and Compliance Health Check Report with Summary Report Card
2. Next-step recommendations
3. Half-day Regulatory and Compliance Health Check presentation and results review workshop

All Foundstone projects are managed using Foundstone's proven **Security Engagement Process (SEP)** for project management. A pivotal aspect of this process is continual communication with your organization to ensure the success of your Foundstone consulting engagements.
